complexity 🤯

So...what did we do ?

demo time 🍿 🥤

simplicity 😌

Why automation ?

reduce human mistakes

make code signing
GREAT AGAIN

context switching be like

YEAH, THEY'LL DO THAT.
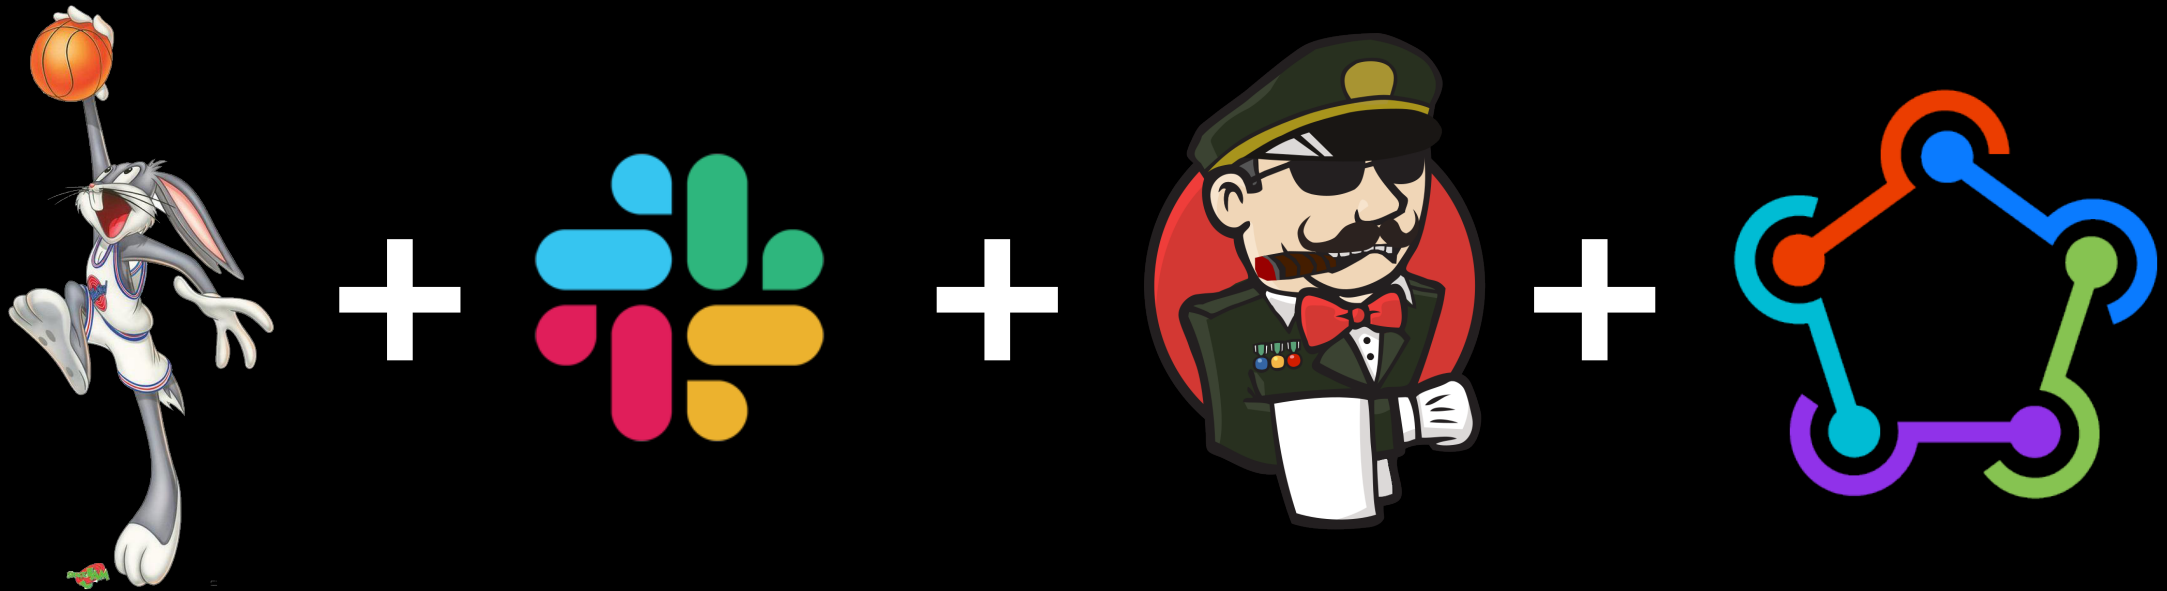

What's behind the scene

main actors

 + + +

co-stars docker
ad-hoc scripts
dotenv convention

What's next ?

efficient pods caching 🧳

better mgmt derived data ♻️

go open source 🔓🤲🏾

store certificates elsewhere 📝
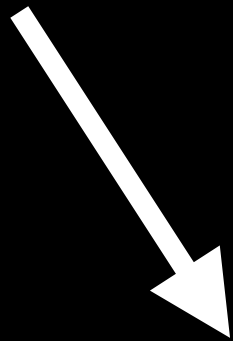

evolve this process 🚀

What's next ?

Vapor

circle**ci**

Takeaways

think like you are composing a **puzzle** 🧩

don't be afraid of the unknown 😨

make time for what that drives your passion 😲

celebrate every single success 🎉

Grazie!

thanks from Harold
